

Sample Emergency Supply Kits for Pets

(Also be sure to keep a smaller version of this kit – food, water, leashes - in your car's trunk, if possible).

Make sure that everyone in the family knows where it is. This kit should be clearly labeled and easy to carry. Items to consider keeping in or near your pack include:

- 7 day supply per person AND pet of water
- 3-7 days' worth of canned (pop-top) or dry food
- Disposable litter trays (aluminum roasting pans or shallow brownie pans are perfect)
- Litter, paper towels, baby wipes
- Liquid dish soap and disinfectant (bleach)
- Disposable garbage bags for clean-up and disposable cleaning gloves
- Pet feeding dishes (the reusable plastic containers work well, also)
- Extra collar or harness as well as an extra leash for dogs
- Photocopies of medical records, particularly rabies vaccination paperwork and a waterproof container with a two-week supply of any medicine your pet requires
- A traveling crate or sturdy carrier, ideally one for each pet
- Flashlights, batteries, crank radio if you have one
- Blankets, towels (for scooping up a fearful pet and for covering crates)
- Recent photos of your pets (in case you are separated and need to make "Lost" posters)
- Especially for cats: Pillowcases, toys, litter
- Especially for dogs: Extra leash, toys and chew toys, a week's worth of cage liner

You should also have an emergency kit for the human members of the family. Items to include: Batteries, duct tape, flashlight, radio, multi-tool, tarp, rope, permanent marker, spray paint, baby wipes, protective clothing and footwear, extra cash, rescue whistle, important phone numbers, extra medication and copies of medical and insurance information.
